THE g ring infringement of Treaty rights by the late Governor of Formosa exposed by General Fang Yao at Canton was examining a a correspondent of the N. C. Daily News, in batch of prisoners charged with various orimes, a letter published in yesterday's issue, ought sinister and fercoious countenance kneeled fornot to escape the notice of Sir John Wal- ward and said, "I confess that I have committed SHAM. Indeed, there can be little doubt that many robberies. In the case of the Namoa robforcible representations on the subject will whom have been caught and executed by you. be laid before him by the Douglas Steamship But in your fary and blind seal you have put to Company, Limited, the parties most affected by this most inequitable act. As stated by Nearly twenty innocent people have been sacrific. the correspondent in question the steamers ed and I hope your Excellency will be careful in

enabled to compete successfully with the foreign Company by the following unfair means. The Lokin Office has been directed to pass, free of lekin, export goods intended for shipment by the steamers of the native-Company. The result of such an exemption must be to drive shippers to give cargo to the favoured vessels. This is unquestionably a violation of the spirit of all the Treaties,

and a direct infringement of the stipulations of some of them. In Article XV. of the American Treaty of 1844, it is expressly provided that citizens of the United States "shall not be subject to any new limitations, "nor impeded in their business by mono-"polies or other injurious restrictions." The French Treaty of 1858 contains likewise a very explicit declaration on this

point, Article XIV. providing that "no pri-"vileged commercial society shall hence " forward be established in China, and the "same shall apply to any organised coalition " having for its end the exercise of a mono. " poly of trade." Yet here we find the Governor of Formosa, emboldened no doubt by the absolute indifference exhibited by the British Minister to the complaints of British subjects, of wrongs suffered by them, venturing openly to erect a monopoly the im-

mediate object of which is to injuriously restrict-foreign trade. Unfortunately for the Douglas Steamship Company Sir John WALSHAM still lingers at Peking, and any chance of their obtaining the abolition of this monopoly is faint until his successor arrives. An aftempt should be made, however, Harhad burt himself by the fall and had to be r. Rustomjee it was decided that brokers could to compel the Minister to take action, failing which direct application, to the Foreign Office should be made. It is lamentable to think that at such a juncture, when British interests are suffering from the illegal act of an unscrupulous mandarin, appeal to the natural and duly constituted protector of

those interests should have to be regarded

as a useless formality, how useless the cor-

in reference to a complaint by Messrs. TAIT

THE flower sellers, whose modest industry has hitherto formed an agreeable feature of the street life of Hongkong in the neigh-Orders through Local Post or by Telegram- bourhood of the Club, have been "moved en," or, to be more correct, " moved off Flowers are no doubt still obtainable by those who care to go to the trouble of look- wore then indicate thy the successive living of ing for thom, but button-holes and bouque's are no longer tendered to passers by in the street. As regards obstruction it will not do to have one law for an influentia institution like the Club and another for flower sellers, insumificant as the interests or influence of the latter may be.
